DEPARTAMENTO DE DOCUMENTACION Y BIBLIOTECA
SECCION INFORMACION Y SERVICIOS AUXILIARES

BIBLIOGRAFIA: N° 152

TEMA SOLICITADO: METACUALONA-ANALISIS EN MEDIOS BIOLÓGICOS

FUENTE:

Assay of methaqualone in blood / Stanley S. Brown; S.Stanley Brown. A.A.34:1D55
Methodol.Dev.Biochem. 5,179-84,1976

Simultaneous gas-chromatographic determination of cocaine, metha-
done, methaqualone, phencyclidine and (dextro) propoxyphene / Naresh
C.Jain; Dennis M. Chinn; T.C. Sneath(et.al).— J.Anal.Toxicol.1(4):
192-94,1977

A.A.34:5D51

Thin-layer chromatographic detection of novonal / S. Goenechea;
K.J.Goebel.— J.Chromatogr.147,532-34,1978

A.A.35:2D41

Detection of mehtaqualone in human urine by radio-immunoassay and
gas-liquid chromatography after a therapeutic dose / Michael J.
Kogan; Dennis Jukofsky; Karl Verebey(et.al).— Clin.Chem.24(8):
1425-26,1978

A.A.36:6D56

Simultaneous identification and quantitation of diphenhydramine
and methaqualone / K.W. Hindmarsh; N.W.Hamon; D.F. Le Gatt.—
Clin.Toxicol. 11(2):245-55,1977

A.A.36:1D52

Simultaneous liquid-chromatographic determination of twelve common sedatives and hynoptics in serum / Pokar M. Kabra; Howard Y. Koo; Laurence J. Marton.— Clin.Chem. 24(4):657-62,1978

A.A.36:5D54

Radio-immunoassay of methaqualone in human urine compared with chromatographic methods / S. Joseph Mule; Michael J. Kogan; Dennis Jukofsky.— Clin.Chem. 24(9):1473-76,1978

A.A.36:6D55

Simple gas-chromatographic method for the determination of hipnotics in serum / W.R. Kuelpmann.— J.Clin.Chem.Clin.Biochem. 17(3):115-21,1979

A.A.37:5D51

New, rapid gas-chromatography method for detection of basic drugs in post-mortem blood using a nitrogen-phosphorus detector. II. Quantitative analysis / Ladislav Kopjak; Bryan S. Finkle; Terry C. Lamoreaux; Wayne O. Pierce(et.al).— J.Anal.Toxicol. 3(4):155-57,1979

A.A.38:5D34

Determination of monoureides in biological fluids by high-pressure liquid chromatography / Michel Eidelbaum; Buerbel Sonntag; Gerd Von Unruch.— Arch.Toxicol. 41(3):187-93,1978

A.A.39:3D51

Mass screening and confirmation of methaqualone and its metabolites in urine by radio-immunoassay-thin-layer chromatography / Robert D. Budd; Felisa C. Yang; Wai J. Leung.— J.Chromatogr. 190(1):129-32,1980

A.A.39:6D58

New method for detection of sedative drugs on thin chromatograms using chlorine vapours and 2,7-dichlorofluorescin / Dennis J. McElwee.— <u>J.Anal.Toxicol.</u> 3(6):266-68,1979	A.A.39:2D67
Determination of methaqualone and its mayor metabolite in plasma and saliva after single oral doses / Michael A. Peat; Bryan S. Finkle.— <u>J.Anal.Toxicol.</u> 4(3):114-18,1980	A.A.40:6D66
Determination of nitrometha qualone (3-(2-methoxy-4-nitrophenyl)-2-methyl-quazolin-4(3H-one)) in blood by electron-capture gas chromatography / M.Van Boven; P.Daeneus; G. Vanderaycken.— <u>J.Chromatogr.</u> 182(3-4):435-38,1980	A.A.40:2D57
Forensic drug analysis by h.p.l.c./Ira S.Lurie.— <u>Int.Lab.</u> 10(8):61-65,1980	A.A.40:6E11
Simultaneous determination of diphenhydramine, methaqualone, diazepam and chlorpromazine in liver by use of enzyme digestion: comparison of digestion procedures / Michaela Holzbecher; Herman ^A . Ellenberger.— <u>J.Anal.Toxicol.</u> 5(2):62-64,1981	A.A.41:5D119

Determination of barbiturates and some neutral drugs in serum using quartz-glass capillary gas chromatography / Bengt Kinberger; Anders Holmen; Peter Wahrgren.— J.Chromatogr.Biomed.Appl.13(3): 449-55,1981

A.A.42:2D49

Rapid method for screening toxic drugs in serum with liquid chromatography / Pokar M. Kabra; Brian E. Stafford; Laurence J. Marton.— J.Anal.Toxicol. 5(4):177-82,1981

A.A.42:3D43

Pre-columns of Amberlite XAD-2 for direct injection liquid-chromatographic determination of methaqualone in blood plasma/ Robert A. Hux; Hussain Y. Mohammed; Frederick F. Cantwell.— Anal.Chem. 54(1):113-17,1982

A.A.43:2D90

Rapid procedure for screening and quantitation of barbiturates diazepam, desmethyldiazepam and methaqualone / H.Horton Mc Curdy; Larry J. Lewellen; Joan C. Cagle(et.al).—J.Anal.Toxicol.5(5): 253-57,1981

A.A.43:3D45
